

To the North East Texas Area,

I Just wanted to let everyone know that Abilene has started their bridging the gap program. For more information on bridging the gap in Abilene contact the district 71 DCM. Also, Fort Worth bridging the gap is doing well. Hopefully we can make more progress in the Dallas area on bridging the gap. I hope to see more treatment facility representatives from Dallas and surrounding communities at our next assembly. I am scheduled to be at a combined 5 meeting in April. If you need my assistance please contact me on the area website.
